MARITIME

Levett Engineering is a world leading precision component manufacturer with an Australian and International client base that includes Defence, Aerospace, Medical, Electronics and Commercial Engineering sectors.

Levett Engineering's customer base is predominately Blue chip organisations including Lockheed Martin, Pratt & Whitney, BAE Systems, L3Harris and Northrop Grumman for which it manufactures complex precision components and mechanical assemblies.

A detailed understanding of end-to-end Aerospace production processes underpins our expertise. This enables us to deliver quality precision components and assemblies in full, on time, every time.

- Part of Australia's largest privately owned Aerostructures Manufacturing Group (ASDAM)
- Joint Strike Fighter program export partner
- Multiple Exporter of the Year awards.

Project Manage. Manufacture. Partnership.
A better future. Together.

Company Overview

- Market-leading provider of precision components, CNC machining and value-added specialist service e.g. Vacuum Brazing, Surface Treatment & Non-Destructive Testing.
- AS9100 Accredited & ITAR Compliant.
- Broad industry base: including Defence & Aerospace, Medical and Electronics.
- Founded in 1989, Levett Engineering employs 70 people across 3 shifts.
- Headquartered: Adelaide, Australia (6000 sqm facility).

Capabilities

- 5 Axis CNC Milling & Turning
- CMM Inspection
- Electronic Enclosures and sub assemblies
- Surface Treatment
- Non Destructive testing
- Aero-structure & jet-engine parts manufacture
- Vacuum Brazing
- Assembly and Testing
- Project Management Services

Competitive Discriminators

- One stop shop for machined metal components for Defence & Aerospace with 30 years experience in supply.
- Value added services including complex mechanical assembly and pressure testing of brazed components.
- Access to niche value-added services such as Vacuum Brazing, Surface Treatment & Non-Destructive Testing.
- Deep expertise in the machining of Titanium, Aluminium, Inconel's, Stainless Steels, Nickel Aluminium Bronze, Super Alloys
- Highly experienced leadership & project management teams.
- Proven Exporter (US & Europe)- winner of Australian Exports Award with strong Global Supply-Chain OEM partnerships.

Key Customers

- Lockheed Martin
- Pratt & Whitney
- BAE Systems (UK, US, & Aus)
- L3Harris
- Northrop Grumman
- TAE Aerospace
- Boeing Defence, Space & Security
- RUAG

Key Partnerships

- Lockheed Martin – F-35 Program
- Pratt & Whitney – F135 Jet Engine Program
- BAE Systems UK – Avionic box assembly
- AW Bell (Australia) Precision Casting Supply
- TAE Vacuum Brazing Partner
- RUAG Coating Partner

Certifications & Accreditations

2019 – BAE Systems Supplier Collaboration Award

2018 – Business SA “Exporter of the Year”

2018 – EFIC / Business SA “Manufacturing Award”

2015 – Department Of Defence Commendation

2015 – Business SA – Manufacturing Export Award

2014 – Lockheed Martin 100% Quality / 100% On Time Delivery For Year 2014

2013 – Lockheed Martin 100% Quality / 100% On Time Delivery For Year 2013

2009 – 47th Australian Export Awards – Winner Of Emerging Exporter Award

→ AS9100 Rev D, AS/NZS9001

→ DISP, NIST
