DEFENCE & SPACE

KEY SUPPLY PARTNERS

- Okuma Australia
- Automated Solutions Australia
- SEI Carbide
- RE Tooling
- ISCAR Tooling

INOVOR
TECHNOLOGIES

AEROBOND

CAPABILITIES

- Precision Machining of complex components to tight tolerances.
- ISO9001:2015 QA certification
- Mil Spec Anodising Type II Sulphuric
- Mil Spec Chemical Conversion Aluminium Hexavalent and non-Hexavalent Chromium
- Climate controlled Metrology room with 5 axis CMM for quality assurance and reporting +/- 3 micron

DISCRIMINATORS

- 50 pallet pool robot fed machining cell for automated machining of 3, 4 and 5 axis components.
- Bar Fed Mill Turn, up to 9 axis for Automated machining of turn and milled parts.
- Essential 8 Cyber Security
- Over 30 years' experience in high precision machining
- In house anodising and Chem Conversion
- Low volume and high-volume projects
- Through life service and support for component life cycle.
