#EnhancingIndustryAndDefence

MEMBERSHIP BENEFITS

- Assist members in their dealings with the Australian Government (including Government Departments) and Defence prime contractors.
- Facilitate the dissemination of Australian Government and prime contractor defence and security-related policy and procurement information to members.
- Represent members in the presentation of a consolidated Australian SME view, independent of federal or sectoral interests, to both Federal and State/Territory Governments and Defence Prime Contractors.
- Facilitate networking between Federal, State/Territory and regional Defence Industry bodies aimed to optimise Australian industrial capability/content in all Defence and Security-related contracts.
- Assist in the development of policies focused on SMEs operating in the Defence and Security sectors.
- Actively advocate to Federal and State/Territory Governments, Prime Contractors and Government departments such as Defence and Border Force in order to maximise the opportunities for Australian SMEs.
- Provide members an opportunity for networking (including at non AIDN-led exhibitions and conferences) – facilitating collaboration between members to supply greater capacity and capability to the Australian Defence Forces and security agencies.
- Inform members of available training relevant to their business needs.
- Weekly email update with the latest information on the defence industry, including news, opportunities and events.
