

▶ Company Profile

PRP Manufacturing was established in 1991 and is the leader in providing custom engineered solutions using advanced flatbed CNC cutting technology.

▶ Accomplishments

- Awarded contract to supply gaskets to BAE Maritime for Hunter Class Frigate Program
- ISO 9001 certified, extensive quality experience (including AS9100) with key defence partners
- Policies encapsulating OH&S, security, risk and continuity
- Production certified in lean six sigma
- SADI, CDIC and DCG grant recipient
- Members of DTC, AIDN, ICN

▶ Company Discriminators

CULTURE & VISION

A long-term strategic direction underpinned by innovative and progressive company values.

- Creativity, teamwork, inclusion, learning, excellence, and commitment
- A dynamic workforce highly focused and adaptable to change

SUPPLY CHAIN STRENGTH

Trusted long-standing supply chain with compliance, accountability, and traceability for all products and materials.

- Software developed in-house to review and manage supply chain conformance
- Recent defence tenders saw AIC content >80%

PERFORMANCE & QUALITY

Ongoing monitoring, controlling, and improving of production related metrics, including performance, quality, and delivery.

- Metric tracking in areas such as work order productivity, capacity, NCR, RCA, DIFOT, OH&S
- Increases in production efficiency year on year

CAPABILITY

CNC computer cutting

DISCRIMINATORS

- State of the art facility featuring waterjet, laser, router (5-axis), knife and die press technology
- Tolerancing to +/-0.02mm
- Catering to all materials, in both high and low volume production

CUSTOMER

MARKET

Nitrile rubber block isolators for use in pipe support manacles as part of the Air Warfare Destroyer Program.

Gasket & seals

- Supplier of gaskets and seals from rubber, sponge, cork, fiber and metallic varieties
- Compliance to all international standards

Awarded contract to produce and supply gaskets for SEA 5000 Hunter Class Frigate Program.

Protective hard case & foam inserts

- Relationships with leading hard case suppliers including Pelican, Nanuk, Max
- Fire retardant, anti-static and FDA foam varieties
- Custom profiles with CAD and 3D scan capabilities

Hard cases and protective foam inserts for weapons handling and storage.

Custom packaging solutions

- Custom sizes to suit any unique requirements
- Stackable, lightweight, durable
- Optional internal foam inserts, dividers and industry 4.0 trackability

Custom designed storage boxes with internal foam for part accountability and lean workflow on assembly lines.

Advanced foams & insulation

- Class-leading properties addressing fire retardancy, electro-static discharge (ESD), thermal conductivity, sound attenuation and radio frequency (RF)
- Materials suitable for vehicle walls and flooring, panel insulation, through to electronic circuit boards

Bespoke light-weight HVAC insulation components using specialised Lloyd's Register compliant material.
