

Rowlands METALWORKS

COMPANY OVERVIEW

Since our founding in 1956, we have become one of South Australia's premier manufacturers of sheet metal, steel, and engineering products. Today, as a part of the Rowlands Group of Companies, we offer comprehensive turnkey services. This group also encompasses one of South Australia's leading painting and powder coating companies, Defence Coating Systems (DCS). With the formation of this group in 2020, our capabilities continue to expand.

CAPABILITY

- Advanced combination of fully automated Laser/Turret punch and Turret machines with auto-load and unload capability for metals up to 6.0mm thick.
- 3D Wire Additive Manufacturing Printing Robot: AML3D.
- Multi-dimensional brake press folding with CAD/CAM capabilities.
- MIG and TIG welding for mild steel, aluminium, and stainless steel.
- 3D solid modelling capability.
- Interface logistics for product export.
- Capability to provide Industrial Design, Product Development, Project Management, Manufacturing, and Engineering services from concept to production.
- Product assembly and logistical support as required.
